

**PRODUCT: INSECT KILLER**

**NEW MODEL  
PRESENTATION**

Contact Zenith HW

commercial use

**GC2-16 Kingkong Insect Killer**

## **TOP1 SELLER FOR COMMERCIAL SERIES**

### **Advantages:**

1. Full open design helps to attract insects from all directions. The **attracting efficiency** is improved.
2. Enlarged high voltage inner grid to increase the contact area of insects. The **killing efficiency** is improved.
3. Full open design for easy replacement of the lamp, much more convenient for end users and after-sale service.
4. **4000V high voltage for best killing;**
5. **Hidden chain holder** with strong protection for ceiling suspending and elegant looking;
6. **Logo position** is flexible, can be put top or bottom, left or right as the carrier is removable.
7. **Patent design with patent certificate**, it is unique in your market.
8. It has **5** different sizes available.

# Various Sizes:

Different size for different coverage:

Model No.	Tube Watt	Product Size	Coverage
GC2-12	2*6W	31.6*10*26.5cm	30m <sup>2</sup>
GC2-16	2*8W	39.2*10*26.5cm	50m <sup>2</sup>
GC2-20	2*10W	43.7*10*26.5cm	80m <sup>2</sup>
GC2-30	2*15W	54.2*10*26.5cm	100m <sup>2</sup>
GC2-40	2*20W	69.6*10*26.5cm	150m <sup>2</sup>

# NEW LED PRODUCTS

More advantages compare to tubes

- LED has long working life up to 20,000 hours, about **2.5 times** longer than lamp tube. No need to replace.
- Spectrum 365nm of UV-A light is commonly used in the market, but our LED has 2 spectrum( 365nm +395nm) not only can attract mosquitoes but also attract flies and other bugs. So the attraction is better.
- LED is stable and can work from 100-240V, so it can work well in the market which facing unstable voltage issue.
- LED is low energy consumption which can save electric bills, this is also a selling point that end consumers really like.
- LED will not be broken during transportation but lamp tube may do.This can save a lot of after-sell service.

※Led is a market trend, more and more people like it. We have been working on LED insect killer for 4 years before lauch these products. it's definitely worth adding to your product list,It is always easier to gain more market share by starting early.

INNOVATION IS EVERYTHING

## Indoor Commercial use-----with BIG POWER UV-A LED light as attraction

### Working Step:

1. **Attraction:** Special treated UV-A LED with 365nm +395nm wave length.
2. **Killing:** High voltage inner grid for instant killing.
3. **Cleaning:** Bottom big collection tray for easy cleaning.

### Advantages:

1. Four side open as best attracting rate for insect.
2. **2500V** high voltage to kill all kind of insects.
3. Removable collection box with special button locking design, easy to open for cleaning and can fix the collection box well at any time.
4. ABS fireproof material.

**GB-16BL/30BL Jasmine Insect Killer**

**INNOVATION IS EVERYTHING**

# Various Sizes:

GB-16BL

GB-30BL

Different size for different coverage:

Model No.	Tube Watt	Product Size	Coverage
GB-16BL	6W	30.5*10.8*26cm	100m <sup>2</sup>
GB-30BL	8W	40.5*10.8*26cm	150m <sup>2</sup>

commercial use

**GB-16L/30L Glory Insect Killer**

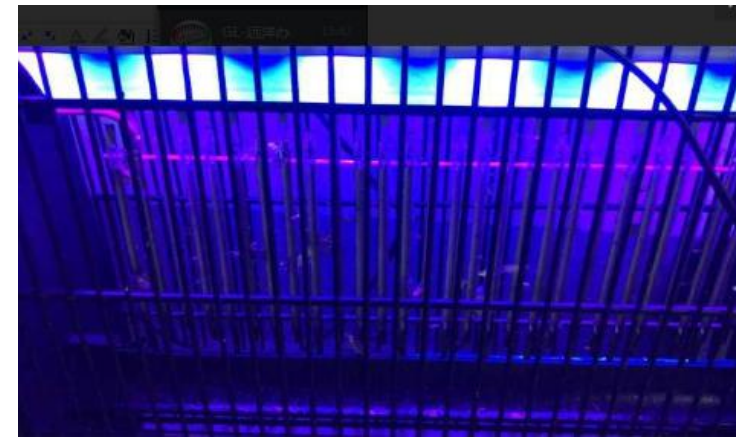

**Working Step:**

- 1. Attraction:** Special treated UV-A LED with 365nm +395nm wave length.  
Same efficiency as Philips and Sylvania.
- 2. Killing:** High voltage inner grid for instant killing.
- 3. Cleaning:** Bottom big collection tray for easy cleaning.

**Advantages:**

- 1.** Four side open as best attracting rate for insect.
- 2.** Four side strip light to inlarge the UV-A light, as best attrating rate for insect.
- 3.** **4000V** high voltage to kill all kind of insects.
- 4.** ABS fireproof material.
