

2-1 Blender

YL-013

YL-010

YL-767

YL-9133A

YL-9148

Button/manual control

Motor: 9535# Motor

Rotating Speeds: 26000-28000RPM

Power: 1500W

Voltage: 220V-240V/50Hz-60Hz

- 10 speeds + pulse switch
- PC or Tritan (BPA-free) container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- ABS body: Injection color

2-2 Blender (high power)

YL-K15A

YL-K20

YL-K30

YL-K32

YL-K40

Button/Manual/Touch control

Motor: 9545# Motor

Rotating Speeds: 28000-30000RPM

Power: 2200W

Voltage: 220V-240V/50Hz-60Hz

- Stepless speed regulation+ pulse switch
- PC or Tritan (BPA-free) container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- Special motor house plus aluminum structure, the use of more stable, no shake, low noise
- ABS body: Injection/Spray color

2-3 Blender (high power)

YL-1108A

YL-1108B

YL-1108C

Button/Manual/Touch control

Motor: 9540# Motor

Rotating Speeds: 28000-30000RPM

Power: 2200W

Voltage: 220V-240V/50Hz-60Hz

Stepless speed regulation+ pulse
witch

PC or Tritan (BPA-free) container

Patented stainless steel blades

Anti-skid and shockproof base
design

Special motor house plus aluminum
structure, the use of more stable, no
shake, low noise

▪ ABS body: Injection/Spray color

2-4 Blender (high capacity)

NEW

K80(6.0L)

Timing Function Panel
Version: (30S,
60S,120S,180S,240S,300S,
Manual)

**YL-Q8
(4.5L)**

**YL-Q8
(4.0L)**

**YL-A5
(2.5L)**

Button/Manual control

Motor: 9845# Motor

Rotating Speeds: 30000RPM

Power: 2200W

Voltage: 220V-240V/50Hz-60Hz

- Stepless speed regulation+ pulse switch
- 2.5L/4.0L/4.5L PC/Tritan (BPA-free) container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- ABS body: Injection/Spray color

2-5 Blender (Silent design)

YL-9105B-D

2019 New product, plastic body

YL-9105B-S

2019 New product, plastic body

Touch Control/ Silent Design

Motor: 9840# Motor

Rotating Speeds: 38000RPM

Power: 2200W

Voltage: 220V-240V/50Hz-60Hz

- Touch and Manual multi-functional options.
- PC or Tritan (BPA-free) container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- The Soundproof Design, and Sound enclosure with feed opening

09 Blender (Silent design)

YL-K80-D

Timing Function Panel Version:
(30S,
60S,120S,180S,240S,300S,
Manual)

YL-K80-S

Touch Control/ Silent Design

Motor: 9840# Motor

Rotating Speeds: 38000RPM

Power: 2200W

Voltage: 220V-240V/50Hz-60Hz

- Touch and Manual multi-functional options.
- 1.5L PC or Tritan (BPA-free) container
- Stainless steel blades
- Anti-skid and shockproof base design
- The Soundproof Design, and Sound enclosure with feed opening

3-1 Heating blender

YL-VM

Touch control

Motor: 9830# Motor

Rotating Speeds: 28000RPM

Power: 1500W, Heater power: 800W

Voltage: 220V-240V/50Hz-60Hz

- Touch and Manual multifunctional options: Cut ice, the soup, rice cereal, soy milk, fruit juice, fish soup, porridge, cleaning and Manual function (fixed speed, timer, heating)
- The driving gear for Zinc alloy material with high temperature wear-resistant fluorine rubber. Low noise, no noise
- 1.75L Glass Jar with micro switch: high-temperature high-boron glass and lid with handle human design. Easy to open
- Double safety protection device: have overload protection switch for motor
- ABS Body: Spray color Red, White, Orange, Spray gold

3-2 Heating blender

YL-9118B

YL-F700

YL-F800

Touch control

Motor: 9835# Motor

Rotating Speeds: 28000RPM

Power: 1400W/ Heater power: 800W

Voltage: 220V-240V/50Hz-60Hz

- Touch and Manual multifunctional options: Cut ice, the soup, rice cereal, soy milk, fruit juice, fish soup, porridge, cleaning and Manual function (fixed speed, timer, heating)
- The driving gear for Zinc alloy material with high temperature wear-resistant fluorine rubber. Low noise, no noise
- 1.75L Glass Jar with micro switch: high-temperature high-boron glass and lid with handle human design. Easy to open
- Double safety protection device: have overload protection switch for motor
- Special motor house plus aluminum structure, the use of more stable, no shake, low noise.
- ABS Body: Spray color Red, White, Orange, Spray gold

4 Soymilk blender

YL-9167

YL-9138

Button control

Motor: 9875# Motor

Rotating Speeds: 30000RPM

Power: 2800W

Voltage: 220V-240V/50Hz-60Hz

- Stepless speed regulation+ pulse switch
- 10L/12L/18L/20L/30L/40L Stainless steel 304# container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- ABS body: Injection/Spray color

5 Blender-tea extracion

YL-K98A

YL-9109B

YL-9133B

Multi-stage control

Motor: 9530# Motor

Rotating Speeds: 26000RPM

Power: 1500W

Voltage: 220V-240V/50Hz-60Hz

- Six function (Shake, Tea Brewing 1, Tea Brewing 2, Tea Brewing 3, Mild foam, Cream and Smoothie) intelligent timing + pulse switch +10 speeds
- 900ml PC stirring container
- Patented stainless steel blades
- Anti-skid and shockproof base design
- ABS body : spray paint color
