## FRANCE STYLE CAST ALUMINUM

It offers exceptional heat conductivity and durability of die casting aluminium for body and lid. The promotion of authentic food, even in the condensation on the lid, and then dropping back to the food evenly, and forms a "steam cycle" more of the "delicious cycle" to make the food tasty and succulent.

# Lyon

silicone glass lid and aluminum lid, matching with vivid radiant color cookware body and color painted handle.

The highest praise received for the design:

There are a thousand "London Series" in a thousand people's eyes.

- 01 Magnetic Locking Mechanism:**  
Magnetically locks handles together ensuring better seal with pressure.
- 02 Stainless Steel Holder:**  
Securely connects the handles to the pan.
- 03 Silicone Seal Packing:**  
Used to seal the pan, preventing oil, liquid and smoke from escaping when pan is closed. Prevents leaks when flipping pan to cook on the other side.
- 04 Drip Tray / Oil Receptacle:**  
Collects excess oil and water condensate on from the upper pan upper pan upon opening.
- 05 Hinge Joint / Safety Stop:**  
Joins each half of the pan. The left side hinge has a mechanical stop to restrict and limit pan opening.
- 06 Steam Vent / Port:**  
Vent steam and releases internal pressure.
- 07 Grooved Rim:**  
Helps in sealing the pan by accommodating the silicone seal packing into its groove.
- 08 Heat Resistant Handle:**  
Ergonomically designed for comfortable and safe handling.
