Control on-the-go

Imagine a world where all devices are connected and can communicate and interact freely with others.

Now, with IoT integration, you can monitor and adjust the temperature of the oven while you are enjoying time with your family; or start the cleaning robot while you are on your way back home - all can be done on the mobile devices.

Everything is under control within your finger tips.

Sit back, and control your cleaning robot with the phone. With MSmartLife app, you can plan the route or change the working function easily.

TRENDING TECHNOLOGIES FROM MIDEA

VoiSmart[™] Technology

With Midea VoiSmart™ Technology, an advanced voice connection solution, you can talk naturally to the appliance without memorizing specific commands.

VoiSmart™ - Basic

Speak out the command or menu, the local-voice-activated appliances instantly understand what to do next. No Internet, Bluetooth or any connection needed. All stored and happen locally.

VoiSmart™ - Plus

Seamlessly link with the AI assistant - Google Home or Alexa with the help of VoiSmart™ - Plus.
Talk naturally to the AI assistants, and your appliances will react intelligently: from reheating a pizza, making a popcorn, to start the cleaning robot.
No button, no knot, no hassle.

TRENDING TECHNOLOGIES FROM MIDEA 010

Product Advantages

Sleek, smooth and stylish New handle design

Our newly designed handle decorates your kitchen with sleek and timeless look

Elegant, Efficient And Effortless New Knobs Style

Newly-designed knobs can be rotated with the decorating ring simultaneously, or on their own. Heat resistance, durable, and elegant.

Product Advantages

The Cooktop

IntelliKlean® Cooktop Panel

Our advanced coating material that makes cleaning even easier, and helps remain a long-lasting new-looking appliance.

Breezy Cleaning

Invented and patented by Midea, IntelliKlean® is a cutting-edge coating material that aims to offer a unprecedented cleaning experience. Formed by dense molecule, the material protects the surface reliably. Grease and residue can hardly stay. Simply clean the surface wit a damp cloth, no arduous scrubbing and abrasive cleaners required.

Normal stainless steel panel

Stainless steel panel with Intelliklean®

Lasting New-look

With outstanding chemical stability, IntelliKlean® coating material ensures the surface of the freestanding oven lasting shiny-looking, without corrosion or getting discolored even after long-time usage and cleaning.

Assuring Safety

IntelliKlean® coating material has food-graded safety, which passes the safety regulation of FDA, LFGB and GB.

Remarkably stable chemistry property can easily withstand temperature that is over 500°C with no harmful substance discharge.

Safe Flame failure protection

The cooktop secures your safety with flame failure protection device. If the flame is accidently extinguished, the device will block the gas flow to individual burner.

Easy Electronic ignition

Electronic ignition allows you to use only one hand for easy igniting, with remarkable 99.9% success rate. Detection device assures burner gets ignited once gas flows out.

Product Advantages The Oven

Effortless, spotless Enamel cavity

Enamel cavity has a smooth, contemporary grey look. Its glazed surface requires minimum cleaning effort. Don't forget it also owns outstanding scratch-resistant and anti-bacterial abilities.

Spacious Large cavity

The freestanding ovens are designed to provide increased capacity to accommodate even the largest dishes.

Evenly,tasty Convection fan

The efficient heating fan enables uniform cavity heating throughout.
